INSURANCE INSPECTION OF ALL GNJ PROPERTIES

TO: Insurance Committee, District Superintendents, Clergy, Church Trustees, Lay Persons, building/property managers, rectors, and any other interested party

As a continued value added service to all GNJ Methodist churches your insurance carrier, Mercer Insurance, has contracted with H&S Loss Control Inspections to inspect all GNJ properties at no additional cost to your church. This will be an ongoing process, for example the last time Conference wide inspections were done it took three (3) years to complete.

H&S Loss Control Inspections, Inc. specializes in commercial building valuations and loss control services. They have over 40 years experience in the field and operate in the 48 contiguous United States; their corporate headquarters are located in Hackettstown, NJ. H&S has been provided with contact information for each GNJ church and will get in touch with individual churches to set up an inspection starting on August 15, 2013. Again this will be an ongoing process so it may be weeks or even months until your church is contacted to set up an inspection.

An H&S inspector will need to complete an interior and exterior inspection of every church owned property. The inspection will be to assess the replacement value of all buildings (H&S is not assessing the value of your contents) and to inspect the properties for any loss control issues. Please note that if any hazards are found at any of your locations they will need to be addressed. Sovereign Insurance, GNJ's program administrator, will follow up with you to address and correct any identified loss control issues.

If for any reason you need to contact H&S Inspections to either return their call or with any questions about your upcoming inspection you can contact them at:
