Food Pantries – Volunteers

Documenting Volunteer Hours

GNJ urges their 540 churches and 23 Hope Centers to keep rigorous track, both electronically and on paper, of the number of hours that volunteers are providing during the COVID-19 health crisis.

The Federal Emergency Management Agency (FEMA) requires that all funding from its Hazard Mitigation Grant Program (HMGP), money that goes toward an action taken to reduce or eliminate long-term risk to people and property from natural disasters, be matched by a local not-for-profit corporation with 25 percent.

FEMA allows the organization to match funding with “in-kind” contributions related to the project. In-kind contributions can include the following but exclude cash contributions by a third party:

- Volunteer labor hours
- Donation of use of property (e.g., for 12-step programs)
- Food for food pantries and contributions to food banks
- Clothes for clothes closets and drives
- Cost of transportation
- Special-event costs

While FEMA has not yet announced HMGP funding for COVID-19-related activities, it is anticipated that such funding may be available during the recovery phase of the COVID-19 response. In Superstorm Sandy, FEMA's program was a major source of funding for rebuilding.

Additional information about FEMA in-kind contributions may be found on the FEMA website [HERE](#) and on the website for Corporation For National and Community Service [HERE](#).

- Thirteen United Methodist Church-related food pantries have received grants of between \$5,000 and \$25,000 from NJPRF. They were among 118 New Jersey food pantries to have received grants.
