

Vanco Introduction

Hello Friends of the Greater New Jersey Annual Conference

I am Rob Zuckerman, your Conference CFO/Treasurer.

I am pleased to announce the GNJ Annual Conference partnership with Vanco as an online giving partner.

The Conference Council on Finance and Administration approved investing in this partnership so that local congregations will receive lower rates and have access to these tools. This investment will save the 86 congregations already using Vanco an estimated \$70,000 annually, and hopefully help and encourage those not using any online giving platform to start today. The goal is to provide our churches with secure, easy-to-use giving tools like online donations and mobile giving. Vanco empowers churches to fulfill their missions by simplifying the giving process.

Through this plan, Conference churches who partner with Vanco will enjoy lower processing rates and terrific customer service ensuring a successful giving experience for both churches and members.

We're excited to offer this plan to all of our Conference churches.

Whether you are already contracted with Vanco or are eager to get started, your church will have access to great savings, high security products and valuable tools to inspire generosity with a simple, impactful online giving experience!

Any church that is already a client can send an email to sales@vanco.com to request the new reduced rates that you are now eligible for with this partnership.

I encourage you to explore all Vanco has to offer by requesting a call or demo! As with any software provider, local churches are encouraged to research what each vendor has to offer and select the option that best meets their needs. To assist you, we've gathered as much information as readily available from nine vendors and put together a comparison grid which you can find on our website.

If you have any additional questions please do not hesitate to reach out.

Thank you and Have a Great Day -
